About Us & Tell a Friend !

Indian Metro Air Quality Service-SAFAR
(ESSO, Ministry of Earth Sciences, Govt. of India)

About Us ✕

The first ever Air Quality Forecasting system for Indian Metropolitan cities has been conceived and developed by IITM, Pune which is India's premier autonomous research institute under the Ministry of Earth Science. The operational services are jointly brought to you by IITM and IMD for air pollution and sun's harmful radiation along with advisories to protect the health of common citizen. The air quality is represented in terms of AQI which is a colour-coded system that allows the public to easily comprehend the air & to make any adjustments to their personal outdoor plans.
