

National Science Day Celebrations at IITM

IITM observed an open day on 26 February 2016 from 10 am to 5 pm in connection with the celebrations of the National Science Day at its premises. On this occasion, students and other visitors were taken round the Institute, in groups, to see the working of scientific instruments and experimental activities at the various laboratories (dendro- palaeoclimatology, air pollution/ envis, wind tunnel, atmospheric chemistry, isotope lab and safar system), to have look at the library, and to have interactions with scientists. The visitors showed great curiosity to know and explore more and more about weather, atmospheric sciences, global warming, climate change, etc. An introductory presentation about the Institute was also given. Students were also guided about the various career opportunities available in the field. Refreshments were distributed among the visitors.
