Reply to application of Shri Risbud Prakash (RTI No. Nil dated 15-09-2018)

i) IITM did not conduct an artificial rainmaking experiment in Aurgangabad in 2015, thus the subject matter is false.

IITM is doing science experiment and the information on flares from 2018 experiment cannot be disclosed due to the following:

1. Since the experiment involves randomization concept, information on burning of flares could not be disclosed. This will affect the double blind procedure for evaluation of results.
2. As per institute policy, other information, like purchase order and invoice could not be disclosed before the execution and completion of the project.

(i-viii). This is first time that we have received RTI. There is no cell in our institute to deal with the application related to consumer forum.

Dated 26th Oct 2018

Administrative Officer

CPIO, IITM
