

Launch of Website for High Resolution IITM Short Range Deterministic Forecast with GFS

The website for high resolution IITM short range deterministic forecast with GFS at T1534 (12km horizontal resolution) has been launched by honourable Dr. M. Rajeevan, Secretary, Ministry of Earth Sciences, Govt. of India on 3rd October, 2016 at Indian Institute of Tropical Meteorology(IITM), Pune. High resolution Global Forecast System (GFS) model at T1534 (Global horizontal resolution~12 km) has been run on real time daily (experimental basis) to generate deterministic forecast for 8 days. The forecast for 8 days is available at http://srf.tropmet.res.in/srf/files/archive_hires.php
